Foy & Gibson Pty. Ltd.

Collingwood.
INFORMATION FOR COUNTRY CUSTOMERS.

When Goods are Returned the Name and Address of the Sender should be written on the outside of the parcel. The Goods should be addressed "FOY & GIBSON Proprietary Limited, Melbourne." If addressed Collingwood they may be delayed at one of the stations on the Collingwood line. Our Delivery Vans are at the Melbourne termini every day.

Packing.—All Goods for the Country are packed carefully, free of charge, in our regular way, to meet the requirements of Rail or Road travel, and are delivered in good condition to the Railway Sheds, Spencer-street, or at the Wharves. Special packing, or packing for export will be an extra charge.

Parcel Post.—By PARCEL POST we can send many small parcels cheaper than by Rail, and remittance sent should include Postage. Customers omitting to include postage will incur extra expense, as in such case we have no choice but to send by rail.

Our Responsibility for Damages of any kind, pilfering, &c., ceases when we deliver Goods at the Railway Sheds or at the Wharves.

When Receiving Goods Customers should satisfy themselves that they are in good order and the packages intact before signing the railway receipt-book at their end. In cases where damage, etc., is suspected, we recommend customers to open packages in the presence of the Station Master.

Pure Natural Wool Underclothing.

In no garments worn by ladies is good fit so important as in Combinations; badly cut they are uncomfortable and spoil the fit of every garment worn over them; well cut they are easy and comfortable and the most satisfactory of all underwear.

The Softness and Elasticity make garments manufactured from it the Ideal Underwear for our variable climate, with the additional advantage that they never lose their shape or comfortable fit until completely worn out. Ideal underwear must be porous and absorbent. Our Natural Wool Underwear is noted for the high pitch of perfection to which these two points have been brought, thus giving free passage to all exhalations from the skin, a point most essential to the maintenance of good health. Another point is the tendency of woollen goods to shrink. This we have at special pains to guard against, as every yard of our Natural Wool Web is thoroughly shrunk as soon as it leaves the weaving machine. Garments washed according to the following instructions are practically non-shrinking.

DIRECTIONS FOR WASHING.

Into two gallons of warm (not hot) soap water add one spoonful of cloudy ammonia. This will remove all grease and perspiration without rubbing. After lightly wringing, pass through two separate quantities of luke-warm water. Dry in the open air.

NOTE.—1. Don't use Hot Water. 2. Don't Rub or they will shrink.

Our Natural Wool Underwear is made in four weights, suited in every respect to the varying seasons of the year.

Gentlemen's Tailoring Department.

By our Splendid System of Self-Measurement, Gentlemen living in the Country may obtain all the advantages connected with this extensive Department. Absolute satisfaction is guaranteed in every detail. We receive many hundreds of orders from the Country, and rarely, if ever, any complaint. Our Cutters are men of large experience. Every Garment is made in our own Factory under strict supervision and carefully examined before being sent to the Customer.

We will be pleased if customers, when visiting Melbourne, will call and leave their measure with us. This does not place them under obligation to us, but will be of great assistance if at any time they should favour us with an order for a suit.

We will be pleased to forward Patterns at any time for their selection.

Sanitary Cedar Paper Felt

SHOULD BE PLACED UNDER ALL CARPETs, MATTINGS, ETC.

It is made in England of the purest materials, and is really the only felt impervious to moth, silverfish and other insects. It is composed in part of cedar wood, and from this it derives its anti-insect properties. It permanently retains the cedar aroma, which is fatal to insect life. No fear of moth where cedar felt is used. Its soft, thick substance makes the floor coverings feel much thicker and soft to the tread, it cushions and protects them from the hard, uneven flooring, and makes them last twice as long.

BEDDING.—Kapok, Cotwool, Hair, & Fibre.

All Bedding made in our own Factories; best quality, highest finish. Good health can be maintained and poor health improved by using pure materials for bedding.

We have discontinued using flock for bedding, owing to its impure and unhealthy nature. We have substituted "Cotwool," which is a decided improvement on flock, as it is made in our own mills from pure and new materials only. We guarantee its purity.

“Dandy” Apple Paring, Coring and Slicing Machine.

Three turns of the crank pares and cores an apple and places the machine in position for another. It takes a very thin paring, and a small core, thereby producing more dried fruit per bushel than most machines. The paring, coring and slicing are each performed by separate knives, thus any of these operations can be omitted if desired.

DALLI BOX IRON.
Double the work in half the time. The "Dalli" Box Iron gives intense and uninterrupted heat, all the labour is saved of taking the Iron in and from the Stove, and as the Iron never loses its heat, it need not be passed over the linen so often, like the old fashioned Iron; a vast amount of muscular energy is thereby saved.

Ready for use in a few minutes. By using the grate given with each Iron according to the directions for use, the fuel blocks are ignited in a few minutes, and the iron gets hot at the same time.

The dimensions and weight are those of an ordinary household Box Iron. Length, 8 inches; width, 4 inches; weight 6 lbs. The directions for use are attached to the handle of each iron. The handling of the Iron is so easy and simple that a child can understand it. Price of Iron, 6/6.

Fuel in boxes, 290 blocks, 2/3.

"FRUITALL" SPRAY PUMP.
With Agitator.
All working parts brass.

"FRUITALL" Spray Pump has all working parts of brass including Plunger, Gland Valve, Valve Seats and Strainer. The Air Chamber is of Steel. Pump is held in barrel by anchor at bottom, and adjustable band at top, fitting over end of stave. The mechanical agitator, as shown in cut, is operated by the stroke of the handle, so whenever any liquid is used it is thoroughly agitated. This style of agitator cannot be too highly recommended.

"POMONA" SPRAY PUMP.
With Agitator.
All Working Parts of Brass.

"Pomona" Spray Pump, Fig. 1957, has won for itself an enviable reputation. We unhesitatingly offer it as the best Orchard Spray Pump for mounting on barrel. Briefly stated the points of superiority are:

1. All working parts brass.
2. No leather packing.
3. All the valves are brass, easily accessible, wing-guided on bevelled seats ground to fit.
4. Air chambers is steel, free from imperfections of cast iron.
5. Lever long and powerful, with adjustable stroke 3, 4, or 5 inch.
7. Pump is held securely by adjustable clamp plate, made to fit either end or side of barrel (our new plate will admit of inserting and withdrawing pump from barrel without removing agitator), and by a small anchor located at the bottom of barrel.
8. Pump projects but little above top of barrel, and it is not caught by branches in passing.

The mechanical agitator, as shown in cut, is operated by the stroke of the handle, so whenever any liquid is used it is thoroughly agitated. This style of agitator cannot be too highly recommended.

All Steel Lever Harrow.

By pulling the Lever the Teeth may be adjusted to any angle, forward or backward, as best suits the condition of the soil. The Harrow can be cleared in an instant by a motion of the Lever, without stopping the team. Adapted to pulverise and level the soil and to cultivate young crops.

The teeth can be instantly changed from the perpendicular to the horizontal position, thereby throwing the Harrow on the runners for transportation.

The teeth are adjustable for wear, and being headed, cannot drop through the holder and get lost.

No. 440—1 Section, 30 Teeth. Weight about 110lbs. £1 17/-
No. 441—2 Sections, 60 Teeth. Weight about 220lbs. £8 10/-

Spring-Tooth Lever Harrows.
With Seat Attachment.

We would call particular attention to our superior form of construction, by which the Commonwealth Cultivators may be varied from the narrowest to the widest position with one motion, and with no change of bolts, and when closed up do not get on dead centre or become difficult to open. The facility with which the wheel may be lowered or raised when turning about at the edge of the field is also found to be quite a convenience.
