ANNUAL REPORT, 1879-80.

REPORT of the proceedings of the Council of the University of Melbourne during the year beginning on the 1st day of June 1879 and ending on the 31st day of May 1880.

To His EXCELLENCY THE MOST HONORABLE GEORGE AUGUSTUS CONSTANTINE, MARQUIS OF NORMANDY, ETC., ETC., ETC.

The University of Melbourne, 31st May 1880.

My LORD,

I do myself the honour to transmit the following Report of the proceedings of the University of Melbourne during the past year, which, according to the Act of Incorporation, is to be made to Your Excellency by the Council.

I.—Examinations.

Since the last Annual Report 640 candidates presented themselves for the Matriculation Examination, of whom 314 passed.

Of the number (314) who passed, 9 were returned as having passed with credit.

The following Table gives the number of candidates who presented themselves this year, and who passed the
ANNUAL REPORT, 1879-80.

Matriculation and Civil Service Examinations respectively:

MATRICULATION EXAMINATIONS 1879-80.

At the Exhibition Examinations at Matriculation—

That for Greek and Latin was awarded to—

William Lowell Mullen (Church of England Grammar School)

and

Arthur Paul (Hawthorn Grammar School),

who were returned as equal.

That for Arithmetic, Algebra, and Geometry, to—

George Horne (Hawthorn Grammar School)

and

Thomas William Arthur Royce (Wesley College),

who were returned as equal.

That for History, Geography, English, and French, to—

Henry William Dunkley (Christian Brothers' College)

and

George Horne (Hawthorn Grammar School),

who were returned as equal.
At the Annual Examinations held in the October Ordinary Examination Term 1879 and the February Term 1880—

Seventy-five passed the First Year Examination.
Forty-nine " Second "
Thirty-four " Third "
Twenty " Fourth "
Three " Fifth "

Of the total number who passed—
Fifty-five passed in Arts.
Thirty-four passed in Laws.
Seventy-five passed in Medicine.
Twenty-four passed in Engineering.
Three passed the M.A. Examination.
Ten passed the M.D. Examination.

At the Honour Examinations held in the October Honour Examination Term 1879 and the February Term 1880 Honours were awarded as follows:

**FIRST HONOUR EXAMINATION.**

**Arts.**

First Class ... None.
Second Class ... William Charles Pritchard (Trinity College).
" ... William Rowland Lelean.
Third Class ... Noel Crawford Atterbury Vance.
" ... William Henry Melville.
" ... Charles Leonard Andrews.
" ... Thomas Palmer.
" ... George Wilson.

**Laws.**

First Class ... Thomas Joseph Byrnes.
Second Class ... None.
Third Class ... Francis William Edmondson (Trinity College).
" ... Ernest Thurston Williams.

**Medicine.**

First Class ... None.
Second Class ... Ernest Knight Overend.
Third Class ... Murdoch McKenzie.
" ... Charles James Shields (Trinity College).
" ... Charles Timon Lane.
" ... Elphinstone Mac Mahon Moors.

Engineering.

First Class ... None.
Second Class ... None.
Third Class ... Thomas Hodgson.
" ... George McKenzie.
" ... Thomas Murray.

Exhibitions. The Exhibitions awarded were—

For Greek, Latin, and Logic—
Thomas Joseph Byrnes.

For Algebra, Geometry, and Trigonometry—
Not awarded.

For Chemistry, Mineralogy, and Botany, and Chemistry and Practical Chemistry—
Elphinstone Mac Mahon Moors.

SECOND HONOUR EXAMINATION.

Arts.

First Class ... None.
Second Class ... None.
Third Class ... Thomas Henry Armstrong (Trinity College).
" ... Joseph Henry Davies.
" ... John Arnold Lilly.
" ... Robert McKay.

Laws.

First Class ... None.
Second Class ... Samuel Burder Backhouse.
" ... Louis James Fitz Gerald Pigott.
" ... Sydney Grenfell.
Third Class ... Herbert William Bryant (Trinity College).
" ... Alfred John Agg.
ANNUAL REPORT, 1879-80.

**Medicine.**

First Class ... William Moore,

"     ... James Eadie.

Second Class ... James William Harbison.

"     ... John Cam Wight.

"     ... George Palmer.

Third Class ... Martin Joseph Ryan.

"     ... John Charles Jackson.

**Engineering.**

First Class ... None.

Second Class ... William Robert Rennick.

"     ... William Walker.

The Exhibitions awarded were—

For Greek, Latin, and English—

Joseph Henry Davies.

The Exhibition for Advanced Mathematics and Natural Philosophy was not awarded.

For Chemistry, Mineralogy, and Botany, and Comparative Anatomy and Zoology—

Thomas Henry Armstrong (Trinity College).

For Jurisprudence, English, History of the British Empire, and Political Economy—

Samuel Burder Backhouse.

For Structural and Physiological Botany and Descriptive and Surgical Anatomy—

William Moore.

For Subjects of the Second Year Engineering—

William Robert Rennick.

**Third Honour Examination.**

**Laws.**

First Class ... None.

Second Class ... John Reford Corr, B.A.
ANNUAL REPORT, 1879-80.

Medicine.

First Class ... None.
Second Class ... George Adlington Syme,} equal.
        } James William Barrett,
Third Class ... Eugene Wilton Anderson.
        } Thomas Loughrey.

Exhibitions. The Exhibitions awarded were—

For Roman Law, Constitutional Law, the Law of Property, and the Law of Obligations—

John Reford Corr, B.A.

For General Anatomy, Physiology, and Pathology, Descriptive and Surgical Anatomy, and Surgery—

George Adlington Syme and James William Barrett,
who were returned as equal.

FOURTH HONOUR EXAMINATION.

Medicine.

First Class ... Felix Henry Meyer.
Second Class ... Alexander Sutherland.
Third Class ... Robert Stewart.
        } John Burder Backhouse.
        } William Henry Coutie.

Exhibition. The Exhibition awarded was—

For Theory and Practice of Medicine, Obstetric Medicine, and the Diseases of Women and Children, and General Anatomy, Physiology, and Pathology—

Felix Henry Meyer.

THIRD HONOUR EXAMINATION IN ARTS.

School of History and Political Economy.

First Class ... Arthur Vincent Green (Trinity College),
        } Thomas Patrick McInerney.

Scholarship. The Scholarship was awarded to—

Arthur Vincent Green (Trinity College).
School of Mathematics and Physics.
The Scholarship was awarded to— Scholarship.
Leo Finn Bernard Cussen.

FOURTH HONOUR EXAMINATION IN LAWS.
First Class ... Isaac Alfred Isaacs.
" ... Theyre àBeckett Weigall.
Second Class ... None.
Third Class ... Theodore George Grano.
" ... William Donnelly Macartney.
The Scholarship was awarded to— Scholarship.
Isaac Alfred Isaacs.

FIFTH HONOUR EXAMINATION IN MEDICINE.
First Class ... William Armstrong.
Second Class ... John William Springthorpe.
" ... John David Thomas, equal.
" ... Fossey James Newman,
" ... Stanislaus Emil Antony Zichy
Woinarski.
The Scholarship was awarded to— Scholarship.
William Armstrong.

THIRD HONOUR EXAMINATION IN ENGINEERING.
First Class ... None.
Second Class ... Thomas Walker Fowler.
" ... Lloyd Ileber Chase.
Third Class ... James Hamilton Fraser.
The Bowen Prize for the best English Essay on "The Prize.
Growth of British Colonization" was awarded to—
Arthur Vincent Green (Trinity College).

On the 6th December 1879 the following Degrees were conferred:

Bachelors of Arts.
Arthur Vincent Green (Trinity College).
James Jamieson.

Bachelors of Laws.
Edward Emmett Dillon.
William Donnelly Macartney.
Bachelors of Medicine.
William Armstrong.
John William Springthorpe.
John David Thomas.
John Arthur Cromwell Welchman.
Stanislaus Emil Antony Zichy-Woinarski.
Charles John Frood.

Doctor of Medicine ad eundem.
James George Beaney.

Bachelors of Surgery.
George Haley.
John Drummond Kirkland.
William Holdsworth Macfarlane.
John Arthur Cromwell Welchman.
John William Springthorpe.
Augustus John Richard Lewellin.
Alexander Murray.
Benjamin Poulton.

Doctor of Music, ad eundem.
George William Torrance.

On the 3rd April 1880 the following Degrees were conferred:

Bachelors of Arts.
Carl Peter Wilhelm Dyring.
Thomas Patrick McInerney.
Albert Edward Pearson.
Roderick Aitchison.
Walter Macgibbon.
John McKay.
Elphinstone Mac Mahon Moors.
Arthur Bertram Taylor.
Joseph Tregilgas Sunter (Trinity College).

Masters of Arts.
Thomas Britton Angwin.
James Wilson.
Francis Henry Rennick.
Alexander McArthur.
Bachelors of Laws.
Walter Davies.
Charles Cashel Gavan Duffy.
Theodore George Granby.
Isaac Alfred Isaacs.
Theyre àBeckett Weigall.
Robert Hodgson Cole.
George Robert Byrne.

Bachelors of Medicine.
Henry Louis Harris.
Thomas Ross Lewers (Trinity College).
Fossey James Newman.
Henry Augustus Samson.

Doctors of Medicine.
James Cox.
John Henry Browning.
Edward Bonaventure Heffernan.

Bachelors of Surgery.
Octavius Vernon Lawrence.
William Armstrong.
John David Thomas.
Stanislaus Emil Antony Zichy-Wolnarski.
Henry Louis Harris.
Thomas Ross Lewers (Trinity College).
Fossey James Newman.
Henry Augustus Samson.
Charles John Frood.

On the 6th December 1879 Arthur William Leake Paul was presented to the Council as being entitled to receive the Certificate of Engineer.

II.—Affiliated Colleges.

In the Report of last year it was stated that the plans of a College to be erected on the lands of the Presbyterian denomination adjacent to those of the University were submitted to and approved of by the Council.

The foundation stone was laid on the 14th day of November 1879, and considerable progress has already been made towards the completion of the building. In recognition of the truly generous act of Francis Ormond,
Esq., of Toorak, who contributed the handsome sum of £12,800 to the building fund, the College will be known as Ormond College.

Steps will be taken to lay before the Council and the Senate a Statute to affiliate the College with the University in accordance with the 8th section of the Act of Incorporation. When completed, Ormond College will provide accommodation for about thirty students and Trinity College, as enlarged, about the same number.

That so large a body of undergraduates can be thus admitted into residence and obtain the benefit of regular collegiate instruction under competent tutors and subjected to domestic discipline and supervision is a subject for congratulations.

The improved opportunities of study as individuals free from the interruptions and distractions of home life, and also as members of classes, must have a tendency to create in the young men habits of industry, and, by competition, to stimulate them to sustained exertion. Moreover, the association in college life will instil into them principles of self-reliance, and help in the formation and development of character.

These and other considerations induce the expression of a hope that the remaining denominations for whom college lands have been reserved will promptly mature the arrangements necessary to enable them to build the colleges required to complete the system originally projected, and relieve the University from the performance of certain duties which have by the pressure of circumstances and the need of assistant colleges been laid upon it hitherto, and leave the University to the discharge of its proper functions.

III.—Buildings.

Funds are urgently required for new buildings and repairs, and the Council earnestly hope that the state of the public finances will soon justify the Government in providing the necessary money.

It gives the Council much satisfaction to report that the Wilson Hall proceeds as rapidly as is consistent with the stability demanded in the construction of a work of such magnitude.
Your Excellency was pleased to assist on the occasion of the laying of the memorial stone on the 2nd day of October 1879, and by your presence and influence gave material support to the Council, for which they are grateful, in their endeavours to testify to Sir Samuel Wilson how thorough was their appreciation of his great liberality.

The hall, so essential to the wants of the University, will, when finished, prove a conspicuous adornment of the city, and remain an enduring monument of his well-directed munificence.

IV.—The Matriculation Examination.

The final report of the Committee appointed to consider the best means of improving the Matriculation Examination has been received by the Council. It was drawn up by the Committee and the Professorial Board after careful consideration and numerous conferences. The Council adopted the report, and embodied the provisions in a Statute, which has been sent to the Senate for its approval.

V.—Resignations and Elections.

Since the preceding Annual Report a seat in the Council became vacant by the resignation of Professor Pearson. It has been filled by the election of Robert Lewis John Ellery, Esq., the Government Astronomer for Victoria.

Messrs. Henry Lawes and Hartley Williams, Barristers-at-Law, resigned their positions as Public Examiners in Laws, and Messrs. Joseph Henry Hood, LL.B., M.A., and John Burslem Gregory, LL.B., also Barristers-at-Law, were elected in their place.

VI.—Alterations in the Statutes and Regulations.

An alteration in Regulations, Chapter XVI., has been made. It is now enacted “That every change in the subjects of and books prescribed for examinations shall be published two years before the first of January of the year in which such examinations are held.”

The Regulation which has been repealed provided “That every change in the subjects of any examination
shall be published before the University Commencement next but one preceding that examination."

In the opinion of the Council, the notice to be given of changes in subjects of examinations was not sufficiently long, hence the alteration, which extends the time from eighteen months to more than two years.

A change has been made in the Regulations, Chapter II., section 4, enabling Art Students of the second year to present Upper Mathematics in lieu of Advanced Mathematics as one of the subjects of their examination if they prefer so to do.

Sections 1 and 4 of Chapter XI. of the Statutes have been repealed and the following enacted in lieu thereof:

"All Examiners' returns shall be forwarded to the Registrar, and retained in his custody. All these returns shall be by him entered in the University books, and from them he shall compile and enter lists of successful candidates to be laid before the Council at their next meeting. Copies of the said lists, attested by the signature of the Registrar, shall be posted within three days after his receiving the last return necessary."

These sections provided that—

"1. The names of all candidates who shall have passed the Matriculation Examination shall be laid before the Professorial Board and shall be entered in a book to be called 'The Examination Book,' and shall be attested by the signatures of the Examiners.

"4. All certificates of attendance at lectures and examinations shall be laid before the Professorial Board, and the names of such Students as shall have been ascertained by the Board to have fulfilled the conditions required by the Regulations of the University shall at the end of each year be inscribed in the Examination Book as having completed that year, and authenticated by the signature of the President affixed at the meeting of the Board."

The object of these alterations is to transfer from the Professorial Board to the Registrar the duty of compiling and publishing the list of successful candidates at the various examinations within a certain
fixed time, so that no unnecessary delay may take place in the performance of what may be regarded as merely routine work.

VII.—The Gilchrist Scholarship.

A communication was received from the Trustees of this Scholarship stating that they had determined to withdraw the biennial nomination from the University of Melbourne and to transfer it to the University of New Zealand. But as the award of the Scholarship for the present year (1879) would fall to the University of Melbourne, the Trustees would be prepared to accept a nomination if a suitable candidate should present himself. The Council availed themselves of this offer, and nominated Mr. William Sutherland, B.A., to the Scholarship. This gentleman left for England in August last, in time to present himself to the Secretary of the Gilchrist Fund in the month of October, as required by the conditions for the Scholarship.

At the time when a nomination to this Scholarship was first offered, viz., in the year 1867, the University of Melbourne did not accept it. The matter was referred to the Professorial Board, who were of opinion that the conditions upon which the Scholarship was to be obtained and held were not of a sufficiently advantageous character to induce our graduates to become applicants for nomination; and, further, that by placing the degree of Bachelor of Arts on a footing with the Matriculation Examination of the University of London, it was lowering the esteem in which the degrees of the University of Melbourne ought to be held. The Council concurred in this view, and took no steps to secure the Scholarship. This year, however, the Council reconsidered the matter, and resolved to accept the Scholarship, but found their acceptance came too late, the Scholarship having been already transferred to the University of New Zealand. The Council, however, was allowed to fill up the Scholarship for the current year, 1879.

VIII.—The Cobden Club Medal.

A letter was received by the Council from the Secretary of the Cobden Club, stating that, if acceptable to
the University of Melbourne, a silver medal will be presented by the Cobden Club to a Student of the Melbourne University for proficiency in Political Economy.

The Council in the first instance resolved that, inasmuch as they have on former occasions declined to accept casual offers of such a nature unaccompanied with an endowment, the offer be respectfully declined, unless a suitable endowment attend the proposal. Upon learning afterwards, by means of further correspondence, that the Universities of Oxford and Cambridge have accepted the medals of the Cobden Club on similar conditions, the Council, on reconsideration, agreed to accept the offer.

IX.—Admission of Women.

The question of admitting female students to the University has been from time to time under the consideration of the Council.

In the year 1871 it was resolved—

"(1.) That in the opinion of this Council the Act incorporating the University and the Statutes do not authorize the Matriculation of females.

"(2.) That in the opinion of this Council females may be admitted to the Matriculation Examination, although such females are precluded from Matriculation."

Last year the Council rescinded these resolutions and resolved—

"That public notice be given that on and after the 22nd day of March 1880 females will be admitted to all the corporate privileges of the University, except that until special provision be made they be restricted from proceeding to Medicine."

Seven ladies have matriculated, but none as yet have attended the University lectures.

X.—Royal Military College Cadetships.

The Council has received the agreeable intelligence that the Secretary of State for the Colonies has intimated through Your Excellency that the Secretary
for War has consented to allow the allocation of one Cadetship per annum at the Royal Military College to students of each of the Colonial Universities.

Information has been applied for as to the conditions with which it will be necessary for the intending candidates to comply. As soon as they are received they will be published, and attention will be called to this important privilege accorded to the young men of Victoria.

XI.—ELECTION OF OFFICERS.

At the annual meeting of the Council, held on the 3rd of May 1880—

The Honorable Sir Redmond Barry, K.C.M.G., was elected to the office of Chancellor for the ensuing year.

Anthony Colling Brownless, Esquire, M.D., was elected to the office of Vice-Chancellor for the ensuing year.

XII.—ACCOUNTS.

A statement showing the Income and Expenditure during the year 1879 is annexed. The amount expended is £17,004 17s.

I have the honour to be,

My Lord,

Your Excellency's obedient servant,

REDMOND BARRY,

Chancellor of the University of Melbourne.
## THE UNIVERSITY OF MELBOURNE.

Audit Office, Melbourne, 23rd July 1880.

G. H. SYMONDS,
ALFRED J. AGG,
Commissioners of Audit.
ANNUAL REPORT, 1880–81.

REPORT of the proceedings of the Council of the University of Melbourne during the year beginning on the 1st day of June 1880 and ending on the 31st day of May 1881.

TO HIS EXCELLENCY THE MOST HONORABLE GEORGE AUGUSTUS CONSTANTINE, MARQUIS OF NORMANDY, &C., &G., &C.

The University of Melbourne,
31st May 1881.

My Lord,

I do myself the honour to transmit the following Report of the proceedings of the University of Melbourne during the past year, which, according to the Act of Incorporation, is to be made to Your Excellency by the Council.

I.—Death of the Chancellor.

Since the last Annual Report the University has sustained an irreparable loss in the death of Sir Redmond Barry, who had filled the office of Chancellor ever since the foundation of the University. The Council, at its first sitting after the death of the lamented Chancellor, passed the following Resolution:

"The Council desire to place on record the sense of their deep regret at the death of the late Sir Redmond Barry, the first, and during twenty-eight years the only, Chancellor of the University. Its initiation is attributable to his foresight and sagacity in suggesting to the Government, at a period of great wealth, but intense excitement, the necessity for commencing an institution which, at the time, by almost all other minds than his, was regarded as premature and unnecessary. His fostering care and unwearying assiduity have assisted in
"its formation and advanced its progress. The memory of such a man will ever be borne in the recollection of those interested in the higher branches of education with feelings of gratitude for his exertions, and sorrow for his loss."

II.—COUNCIL AND SENATE MEETINGS.

The Council has held, since its last Report to Your Excellency, thirty-three meetings, and the Senate has held seven sittings, at which various Statutes and Regulations passed by the Council have been approved, and which Statutes and Regulations, having received Your Excellency’s assent, have become portions of the Laws of the University. A copy of these Statutes and Regulations is appended to this Report. Sixteen meetings of the executive and nearly fifty meetings of sub-committees have also been held.

III.—EXAMINATIONS.

Since the last Annual Report 779 candidates presented themselves for the Matriculation Examination, of whom 337 passed.

Of the number (337) who passed, 7 were returned as having passed with credit.

The following Table gives the number of candidates who presented themselves this year, and who passed the Matriculation and Civil Service Examinations respectively:

<table>
<thead>

At the Exhibition Examinations at Matriculation—
That for Greek and Latin was awarded to—
James Whiteside McCay (Scotch College).
That for Arithmetic, Algebra, and Geometry, to—
James Whiteside McCay (Scotch College)
and
John Henry Michell (Wesley College),
who were returned as equal.
That for History, Geography, English, and French,
to—
Anna Maria Higgins (Presbyterian Ladies' College).

At the Annual Examinations held in the October Term 1880 and the February Term 1881—
Sixty-nine passed the First Year Examination.
Forty-seven " Second "
Fifty " Third "
Thirteen " Fourth "
Thirteen " Fifth "

Of the total number who passed—
Fifty-two passed in Arts.
Thirty-five passed in Laws.
Eighty-one passed in Medicine.
Twenty-four passed in Engineering.
Six passed the M.A. Examination.
One passed the LL.D. Examination.

At the Honour Examinations held in the October Term 1880 and the February Term 1881 Honours were awarded as follows:

**FIRST HONOUR EXAMINATION.**

**Arts.**
First Class ... None.
Second Class ... Charles Hardy.

" ... William Lowell Mullen (Trinity College).

**Laws.**
First Class ... None.
Second Class ... Frederic Gordon Robinson (Trinity College).

" ... Walter Timon Coldham (Trinity College).

Third Class ... William Charles Lewers.

Medicine.

First Class ... None.
Second Class ... James Blair Donaldson.

" ... Alfred Purdue Vaughan.

" ... Noel Crawford Atterbury Vance.

" ... James McImery Pardey.

" ... Nicholas Michael O'Donnell.

" ... Lewis John Birch.

Third Class ... Crawford Henry Mollison.

" ... George Horne.

" ... John Sutherland.

" ... William Patrick Murphy.

Engineering.

First Class ... None.
Second Class ... None.
Third Class ... Alexander McKenzie Tyers (Trinity College).

" ... Kenneth William Felix Fischer.

" ... Edward Croker Rennick.

" ... William Henry Nimmo.

" ... Adam Gibson Shaw.

The Exhibitions awarded were—

For Greek, Latin, and Logic—

William Lowell Mullen (Trinity College).

For Algebra, Geometry, and Trigonometry—

William Lowell Mullen (Trinity College).

For Chemistry, Mineralogy, and Botany, and Chemistry and Practical Chemistry—

Noel Crawford Atterbury Vance.

The Stawell Exhibition for Engineering—

Alexander McKenzie Tyers (Trinity College).
SECOND HONOUR EXAMINATION.

Arts.
First Class ... Frederick William Morris Woodward.

" ... Thomas Joseph Byrnes.
Second Class ... Reginald Stephen (Trinity College).

" ... William Charles Pritchard (Trinity College).
Third Class ... Robert Henry Bromby (Trinity College).

" ... Thomas Palmer.

" ... George Wilson.

Laws.
First Class ... Francis William Edmondson (Trinity College).

" ... William Henry Melville.
Second Class ... William Shiels.
Third Class ... Francis George Syme.

Medicine.
First Class ... None.
Second Class ... None.
Third Class ... Murdoch McKenzie.

" ... Melrose Mailer.

" ... Henry Hyam Crawcour.

" ... Ernest Knight Overend.

Engineering.
First Class ... None.
Second Class ... Arthur Alfred Lynch.

" ... William Henry Sutton.
Third Class ... Frank Moorhouse Gommow.

The Exhibitions awarded were—
For Greek, Latin, and English—
Frederick William Morris Woodward.

For Chemistry, Mineralogy, and Botany, and Comparative Anatomy and Zoology—
Reginald Stephen (Trinity College).
ANNUAL REPORT, 1880–81. 251

For Subjects of the Second Year Law—
Francis William Edmondson (Trinity College).

For Subjects of the Second Year Engineering—
Arthur Alfred Lynch.

The Mathematical and Medical Exhibitions were not awarded.

THIRD HONOUR EXAMINATION.

Laws.

First Class ... John Wilson.
Second Class ... Robert Edward Hayes.
   " ... Samuel Burder Backhouse.

Medicine.

First Class ... None.
Second Class ... William Moore.
   " ... Frederick James Owen.
Third Class ... James William Florance.
   " ... John Wesley Harbison.

The Exhibitions awarded were—
For Subjects of the Third Year Law—
John Wilson, M.A.
For Subjects of the Third Year Medicine—
William Moore.

FOURTH HONOUR EXAMINATION.

Medicine.

First Class ... George Adlington Syme.
   " ... James William Barrett.
Second Class ... None.
Third Class ... Eugene Wilton Anderson.

The Exhibition awarded was—
For Subjects of the Fourth Year Medicine—
George Adlington Syme.

THIRD HONOUR EXAMINATION.—ARTS.

School of Language and Logic.

First Class ... Thomas Jollie Smith (Trinity College).
Second Class... Joseph Henry Davies.
Third Class ... James Lang Robertson.
The Scholarship was awarded to—
Thomas Jollie Smith (Trinity College).

School of Natural Science.
First Class ... None.
Second Class ... Joseph Henry Davies.
" ... Thomas Henry Armstrong (Trinity College).
The Scholarship was awarded to—
Joseph Henry Davies.

FOURTH HONOUR EXAMINATION IN LAWS.
First Class ... None.
Second Class ... Sydney Charles Turner.
" ... John Reford Corr.
" ... Joseph William Dixon.
The Scholarship was awarded to—
Sydney Charles Turner.

FIFTH HONOUR EXAMINATION IN MEDICINE.
First Class ... Robert Stewart.
Second Class ... Felix Henry Meyer.
Third Class ... Alexander Sutherland.
The Scholarship was awarded to—
Robert Stewart.

THIRD HONOUR EXAMINATION IN ENGINEERING.
First Class ... None.
Second Class ... William Robert Rennick.
" ... Frederick Smith.
Third Class ... Herbert Alexander King.
The Argus Scholarship for Engineering was awarded to—
William Robert Rennick.

The Shakespeare Scholarship was awarded to—
Thomas Patrick McInerney, B.A., LL.B.

The Bowen Prize for the best English Essay on "The Value to the British Empire of its Oriental Possessions" was awarded to—
Herbert William Bryant (Trinity College).
IV.—DEGREES CONFERRED.

On the 4th December 1880 the following Degrees were conferred:

Bachelors of Arts.
Thomas Henry Armstrong (Trinity College).
John Thomas Copeland Coutie.
James Alexander Harbison.
Robert McKay.

Ad eundem,
Douglas Brooke Wheelton Sladen (Oxford).

Master of Arts, ad eundem.
James Lambie (Glasgow).

Bachelor of Laws.
Joseph William Dixon.

Bachelors of Medicine.
Francis Hudson Eastwood.
Archibald Martin Macfarlane.
Felix Henry Meyer.
Alexander Sutherland.
Thomas Rupert Henry Willis.

Bachelors of Surgery.
Francis Hudson Eastwood.
William Snowball.
Robert Talbot.

On the 23rd April 1881 the following Degrees were conferred:

Bachelors of Arts.
Charles Herbert Hill.
Joseph Henry Davies.
William Stewart Page.
Henry Finch Rix.
Thomas Jollie Smith (Trinity College).
James Lang Robertson.
William McGillycuddy Stephens.
Andrew Scott (Trinity College).

Masters of Arts.
James Edgar Laing.
Arthur Alfred Buley.
Robert Edward Hayes.
Archibald Henry Campbell.
Thomas Eggleston Thomas.
Masters of Arts, ad eundem.
Richard Hale Budd (Cambridge).
Alexander Yule (Aberdeen).
Edward Dundas Holroyd (Cambridge).
Robert Scott (Glasgow).
Samuel Fiddian (Cambridge).

Bachelors of Laws.
Sydney Charles Turner.

Bachelors of Medicine.
John Burder Backhouse.
Anthony Colling Brownless.
William Henry Coutie.
Henry Friedman.
Richard Richards Harvey.
Samuel Ormsby Higgins.
Robert Stewart.
William Henry de Burgh Hocter.

Bachelors of Surgery.
John Burder Backhouse.
Anthony Colling Brownless.
William Henry Coutie.
Henry Friedman.
Richard Richards Harvey.
Samuel Ormsby Higgins.
Felix Henry Meyer.
Robert Stewart.
Alexander Sutherland.
Thomas Rupert Henry Willis.

On the 4th December 1880—
William Brown,
George Higgins, and
Thomas Walker Fowler;

and on the 23rd April 1881—
James Hamilton Fraser,
Arthur Capel Hadley, and
David Moffat Wilson

were presented to the Council as entitled to receive the Certificate of Engineer.
V.—AFFILIATED COLLEGES.

It was stated in the last Report that the foundation stone of Ormond College was laid on the 14th of November 1879, and that considerable progress had been made towards the completion of the building. Since then the building has been completed, and it was formally opened on the 18th day of March 1881. A Statute for the affiliation of the College has been passed by the Council and adopted by the Senate.

VI.—DONATION OF BOOKS TO THE UNIVERSITY BY THE REPRESENTATIVE OF THE FRENCH NATION AT THE RECENT INTERNATIONAL EXHIBITION AT MELBOURNE.

Monsieur C. de Montmahou, the representative of the French nation at the recent Exhibition, through M. Boutan, presented to the University 170 volumes of works on scientific subjects, together with a valuable collection of photographs relating to geology, botany, zoology, and chemistry.

The Council has already conveyed to M. Boutan the grateful thanks of the University for this valuable donation.

VII.—ROYAL MILITARY CADETSHIPS.

Since the last Annual Report the Council has received the Regulations issued by H.M. Secretary for War for the selection of candidates for Military Cadetships by the University, and the matter is now receiving the attentive consideration of the Council.

VIII.—H.M. MINING DEPARTMENT AND THE ENGINEERING SCHOOL.

The Minister of Mines has issued the following Regulations for the admission of Engineering Students into the Office of Mines:

THE UNIVERSITY OF MELBOURNE.

Regulations for the Admission of Students of Mining Engineering in the University of Melbourne to study in the Department of Mines.

1. On and after the 1st April 1881 two students of the Melbourne University, in the School of Engineering,
will be annually admitted to the Office of Mines, Melbourne, on the following conditions:—

2. Such students shall be the two who have obtained the highest number of marks at the last preceding Honour Examination for the Third Year for the Certificate of Engineer, and who shall desire to further prosecute their studies in the Department of Mines.

3. They shall be admitted for a period of one year, three months of which shall be passed in the Chief Draftsman’s office, and the remaining nine months in the field with an Inspector of Mines.

4. Students admitted will be required to provide themselves, at their own expense, with all the instruments necessary for both office and field work, and, whilst employed in the office, will be required to pay their own expenses. They will not receive any salary during the year, nor will they be recognised as having any claim to employment at the end of it.

5. They will be permitted to accompany the Inspectors of Mines in their examinations of mines on the surface and underground, and thus to obtain an insight into mining engineering.

6. The students will be required to submit themselves to all rules of discipline in the same manner as officers of the department. The penalty for infraction will be deprivation of all privileges granted by these Regulations.

7. Whilst all possible facilities will be afforded to students to obtain a practical knowledge of their profession, it is to be distinctly understood that the department does not undertake to teach them mining engineering.

H. R. WILLIAMS,
Office of Mines, Minister of Mines.
Melbourne, 16th March 1881.

IX.—MELBOURNE HARBOUR TRUST.

This corporation conveyed to the Council the following Resolution:—

“That there be employed by the Trust in the department, and under the direction of the resident engineer, for the term of three years from the 1st
January 1881, a young gentleman who has passed the Matriculation Examination and a final examination for the civil engineer's certificate at the Melbourne University, and who is desirous of acquiring a practical knowledge of his profession. That the salary be £50 for the first year, £75 for the second, and £100 for the third year, and the Council be asked to nominate a gentleman for appointment to the office.

The Council accepted the offer, and William Robert Rennick, who had distinguished himself in the engineering school, was nominated by the Council, and appointed by the Harbour Trust Commissioners.

X.—BUILDINGS.

The necessity for new buildings, and for the enlargement of the University buildings generally, is, with the increased number of students in the University, becoming more and more urgent. The inconvenience and discomfort caused by over-crowded rooms are felt by both lecturers and students, the class rooms being so small and too few to accommodate the large number of students attending lectures. Additional accommodation is required for offices for the Council and Registrar, and for residences for the Professors. The Council deem it desirable that Professors should reside within the precincts of the University during Term, but, in the absence of sufficient official residences, the Council is unable to secure this advantage to the University.

To meet these requirements, the Council confidently trust that the Government will see fit to place at the disposal of the Council a sum of money sufficient to enlarge the present buildings of the University.

XI.—THE MATRICULATION EXAMINATION.

The Statutes and Regulations, passed last year by the Council for the improvement of the Matriculation Examination, have recently received the approval of the Senate, and have been allowed by Your Excellency.

The Council are now engaged in the duty of securing efficient Examiners for the Examinations to be held under the new system, which will come into operation in the October Term of this year.
XII.—WOMEN STUDENTS.

The lectures of the University are now for the first time attended by women.

XIII. — ELECTION OF CHANCELLOR AND VICE-CHANCELLOR.

At the annual meeting of the Council, held on the 2nd of May 1881, the Honorable Sir William Foster Stawell, LL.D., was elected to the office of Chancellor for the ensuing year, and Anthony Colling Brownless, Esq., M.D., was re-elected to the office of Vice-Chancellor.

XIV. — RESIGNATIONS, LEAVE OF ABSENCE, AND ELECTION OF MEMBERS OF COUNCIL.

The Honorable Thomas Turner a'Beckett, who had been a member of the Council for upwards of twenty years, resigned his seat on the 31st of May 1880. Alexander Leeper, Esq., M.A., was, on the 3rd of August 1880, elected by the Senate to fill the vacancy.

The seat which became vacant by the death of Sir Redmond Barry has been filled by Gerald Henry Fetherston, Esq., M.D., who was elected by the Senate on the 1st of March 1881.

Leave of absence for one year has been granted to the Honorable B. S. Anderson, M.A.

XV.—ANNUAL ELECTION OF LECTURERS AND EXAMINERS.

Richard Annesley Billing, Esq., M.A., Frank Stanley Dobson, Esq., LL.D., Thomas a'Beckett, Esq., and George Henry Neighbour, Esq., M.A., were elected Lecturers on Law; and Joseph Henry Hood, M.A., and John Burslem Gregory, LL.B., were elected Examiners in Laws.

John Drummond Kirkland, Esq., M.B., was elected Lecturer and Examiner on Chemistry and Metallurgy.

Samuel Dougan Bird, Esq., M.D., was elected Lecturer and Examiner on Materia Medica, Therapeutics, and Medical Botany.

Tharp Mountain Girdlestone, Esq., F.R.C.S., Eng., was elected Lecturer and Examiner on Surgery.
James Robertson, Esq., M.A., M.D., was elected Lecturer and Examiner on Medicine.

James Jamieson, Esq., M.D., was elected Lecturer and Examiner on Obstetric Medicine and the Diseases of Women and Children.

James Edward Neild, Esq., M.D., was elected Lecturer and Examiner on Forensic Medicine.

Frederick Joy Pirani, Esq., M.A., was elected Lecturer and Examiner on Logic and Natural Philosophy.

William Charles Kernot, Esq., M.A., C.E., was elected Lecturer and Examiner on Engineering.

William Nicholas, Esq., F.G.S., was elected Lecturer and Examiner on Mining.

Harry Brookes Allen, Esq., M.D., was elected Demonstrator of Anatomy.

Six months' leave of absence was granted by the Council to Professor Halford, in order that he might visit Europe and observe the methods of Physiological study and teaching, and to procure certain of the essentials for a Physiological Laboratory. Dr. Allen generously offered his gratuitous services as Lecturer and Examiner during the Professor's absence. The offer was gratefully accepted by the Council, and Dr. Allen was appointed locum tenens for Professor Halford.

The Professor of Classics having applied to be relieved of a portion of his work, and the Professorial Board having supported his application, the Council thought it desirable to relieve him of the teaching of English Language and Literature, and to appoint a Lecturer and Examiner on that subject. This arrangement was carried into effect by the appointment of Douglas Paterson, Esq., M.A., who commenced his duties on the 25th of April of this year.

XVI.—ACCOUNTS.

A statement showing the income and expenditure during the year 1880 is annexed. The amount expended is £17,682 3s. 3d.

I have the honor to be,

My Lord,
Your Excellency's most obedient servant,

WILLIAM F. STAWELL,
Chancellor of the University of Melbourne.
THE UNIVERSITY OF MELBOURNE.

ALTERATIONS IN REGULATIONS MADE BY THE COUNCIL.

Repeal Section 12 of Chapter VII of the Regulations, and enact in lieu thereof:

"The subjects of the Fifth Examination shall be the Theory and Practice of Medicine of the Fourth and Fifth Years, Surgery of the Third and Fifth Years, and Forensic Medicine."

That the following words be added to Section 9 of Chapter VII of the Regulations:

"Or shall produce a certificate from a Registered Medical Practitioner of having attended twelve cases of Midwifery."

Repeal Section 7 of Chapter XVII, and enact in lieu thereof:

"Three Exhibitions may be awarded at the first Honour Examination: one for Junior Greek (or Senior Greek), Junior Latin (or Senior Latin), and Logic; one for Algebra, Geometry, and Trigonometry; and one for Chemistry, Mineralogy, and Botany as in the Arts Course, and Chemistry and Practical Chemistry as in the Medical Course."

ALTERATIONS IN REGULATIONS AND STATUTES MADE BY THE COUNCIL.

Repeal Regulations, Chapter I, the whole.
Chapter VI., Section 2.
Chapter XV., the first form in the Schedule.
Chapter XVII., Sections 5, 6.

Amend Statutes, Chapter XIII., Section 2, to correspond. And enact instead:

CHAPTER I.—OF THE MATRICULATION EXAMINATION.

1. The subjects of Examination shall be—

(1) Greek
(2) Latin
(3) Algebra
(4) Geometry (and Trigonometry)
(5) English
(6) History
(7) French
(8) German
(9) Arithmetic
(10) Geography.
Any two, but not more than two, of the following:

(11) Elementary Chemistry
(12) Elementary Physics
(13) Elementary Physiology
(14) Elementary Botany.

The details of these subjects shall be—

I. Greek:

Pass.—One book of Xenophon’s *Anabasis*: Translation of short easy sentences from English into Greek prose as a test of grammatical knowledge; Translation of an easy passage from some Attic prose book not prescribed for the Examination; Such a knowledge of Accidence and the leading Rules of Syntax as the preceding sections involve.

Honours.—One of the easier Greek plays, together with a book of Thucydides or an equal portion of Plato; Translation from English into Greek prose; Translation from Greek at sight.

II. Latin:

Pass.—One book of Vergil’s *Aeneid* and one book of Cæsar (or their equivalent); Translation into English of easy passages of Latin, from books not prescribed for the Examination; Translation into Latin prose of easy passages of English; Accidence and the leading Rules of Syntax.

Honours.—The work prescribed for the Pass: A book of Livy and a book of Horace’s Odes (or their equivalent); Translation from English into Latin prose; Translation from Latin at sight.

III. Algebra:

Pass.—Not more than is contained in Todhunter’s *Smaller Algebra*, chapters 1 to 28 inclusive.

Honours.—Not more than is contained in Todhunter’s *Larger Algebra*, up to and including the Binomial Theorem.

IV. Geometry:

Pass.—The substance of Euclid, Books I., II., III. Three propositions shall be set from each book, and any five correctly done shall entitle a candidate to pass.
Honours.—The substance of Euclid, Books I.—VI.: Trigonometry not more than is contained in Todhunter's Larger Trigonometry, chaps. i.—xvii., omitting chaps. ix. and xii.

v. English:

Pass.—Parsing and Analysis according to a printed scheme: Grammar: Composition: Selections from English Literature, not earlier in date than Milton, viz., Poetry, about 1000 lines, of which not more than 250 shall be prescribed for learning by heart, and Prose, an amount not exceeding ten numbers of the "Spectator."

Honours.—A more advanced examination in the work prescribed for the Pass, including an original essay: A Play of Shakespeare, with ten essays of Bacon (or an equivalent), to be studied critically and philologically, with a general reference to the growth of the language.

vi. History:

Pass.—Any two of the following four portions of Elementary History, together with the illustrative Geography:

(1) England, (a) from the earliest times to the Revolution; (b) from the Revolution to the Suppression of the Indian Mutiny. In alternate academic years.

(2) Rome, from the earliest times to the Social War.

(3) Greece, from the earliest times to the death of Alexander.

(4) Europe, from the coronation of Charlemagne to the Battle of Waterloo.

Honours.—The History of England, with that of foreign nations so far as connected therewith; the History of Rome, and that of Greece, as prescribed for the Pass.

vii. French:

Honours.—A more advanced examination, including passages from French authors, from Corneille to the present day: The history of the derivation of the language from Latin: French composition.

VIII. GERMAN:

Pass.—Translation into English of easy passages of German: Translation into German Prose of easy passages of English: Accidence and the leading Rules of Syntax.

Honours.—A more advanced examination, including passages from German authors, from Lessing to the present day: German composition.

IX. ARITHMETIC: Not more than is contained in Hamblin Smith's Arithmetic.

XI. ELEMENTARY PHYSICS: Dynamics, and one of the following: (a) Heat; (b) Sound and Light; (c) Electricity and Magnetism. The amount of knowledge and mode of treatment required will be such as may be found in the latest edition of Balfour Stewart's Elements of Physics.

XII. ELEMENTARY CHEMISTRY: Such knowledge of the Non-metallic Elements and the Laws of Combination as may be tested by written Examination, with the use of symbolic notation, but without requiring practical manipulation.

XIII. ELEMENTARY PHYSIOLOGY: The amount of knowledge and mode of treatment will be such as may be found in the latest edition of Huxley's Lessons, i.—ix.: The Drawing of rough sketches illustrative of answers.

XIV. ELEMENTARY BOTANY, STRUCTURAL AND PHYSIOLOGICAL: A knowledge of the characters of the more important natural orders represented in the Flora of Victoria: Drawing of rough sketches illustrative of answers.

The text books named for Examination in the subjects of
Algebra, Geometry, Arithmetic, Elementary Physics, and Elementary Physiology are not prescribed for Examination, but are mentioned merely to indicate approximately the amount and kind of work expected of Candidates.

2. In the subjects of Arithmetic, Geography, Elementary Physics, Elementary Chemistry, Elementary Physiology, and Elementary Botany, Pass papers only shall be set. In all other subjects an Honour paper shall be set in addition to the Pass paper; and each candidate, when he enters his name for the Examination, shall state as to each subject whether he presents himself for Pass or for Honours. A Candidate who presents himself for Honours in any subject and fails to attain them shall be returned as having passed in that subject, if the Examiner is of opinion that his answers show sufficient knowledge for a Pass.

3. No Candidate shall at the same Examination present the same subject for both Pass and Honours; and no Candidate shall be permitted to matriculate unless he shall at one and the same Examination either pass in six subjects, or, obtaining Honours in one subject, pass in four others, or, obtaining Honours in two subjects, pass in two others.

4. No one shall be admitted to any Matriculation Examination at the beginning of the February Term who has not entered his name, and paid the fee for as many subjects as would enable him on passing in them to matriculate, and at the time of entry paid his fee for some full First-Year University course for a Degree or Certificate. Such fee in case of his failure to pass for Matriculation, but in no other case, shall be returned, and no certificate shall be issued and no publication shall be made for or in respect of any subject passed at any such Examination except in the case of Candidates entitled to matriculate.

5. At every Matriculation Examination the papers of each Candidate shall be distinguished, not by his name, but by his Examination number, assigned by the Registrar according to ballot.

6. The Results of each Examination shall be published in two Lists—

(1) Containing the numbers and the names of the Candidates who pass, arranged in alphabetical order, and opposite each name a record of Honours, Pass,
or Failure in each subject presented. In each subject the percentage of marks shall be published in the case of those who have passed.

(2) Containing the numbers without names of the Candidates who fail to pass, and opposite each number a record of Honours, Pass, or Failure in each subject presented.

7. In addition to these Lists, there shall be published four Class Lists, one in Classics, one in Mathematics, one in English and History, and one in Modern Languages, containing separately the names of those who, having passed the Matriculation Examination, shall be judged by the Examiners worthy of a place in the aforesaid Class Lists on the aggregate of marks obtained by them on the Honour Papers set in either (a) Greek and Latin; or (b) Algebra and Geometry and Trigonometry; or (c) English and History; or (d) French and German. The names shall be arranged in two Classes, those in the First Class in order of merit, those in the second in alphabetical order.

8. Candidates who at any Matriculation Examination, except at that held at the beginning of the February Term, have passed in a number of subjects insufficient to qualify them for Matriculation shall be entitled to receive a certificate thereof in the form contained in the schedule hereto:

SCHEDULE.

Form of Certificate.

Whereas by the Regulations of the University no person is entitled to matriculate therein unless he has at one and the same Examination either passed in six at least of the subjects prescribed for the Matriculation Examination, or, obtaining Honours in one subject, has passed in four others, or, obtaining Honours in two subjects, has passed in two others: And whereas Candidates who at any Matriculation Examination, except at that held at the beginning of the February Term, have passed in any number of subjects less than the number before mentioned are entitled to receive a certificate thereof: And whereas the Candidate hereinafter named has passed in certain of the said subjects although not in a sufficient number for Matriculation: Now these are to certify that at a Matriculation Examination of this University held during the Term of 18 passed in the following subjects (that is to say)

Registrar.

N
9. A separate Examiner shall be appointed for each subject.

10. The Examiners, so appointed, together with such others as the Council may appoint, shall form five Examining Boards, each consisting of at least three members, one for each of the following five groups: A. Classics; B. Mathematics; C. English and History and Geography; D. Modern Languages; E. Elementary Physics, Elementary Chemistry, Elementary Physiology and Elementary Botany. And the members of these Boards shall constitute a General Board, of which the President of the Professorial Board shall be ex officio Chairman, to meet when convened by him to consider all questions relating to Matriculation Examinations.

11. Of Board A, the Examiners in Greek and in Latin shall be members, and the Professor of Classics, whether an Examiner or not, shall be Chairman.

Of Board B, the Examiners in Arithmetic, in Algebra, and in Geometry and Trigonometry shall be members, and the Professor of Mathematics, whether an Examiner or not, shall be Chairman.

Of Board C, the Examiners in English, in History, and in Geography shall be members, and the Professor of History, whether an Examiner or not, shall be Chairman.

Of Board D, the Examiners in French and in German shall be members, and the Professor of Classics, whether an Examiner or not, shall be Chairman.

Of Board E, the Examiners in Elementary Physics, in Elementary Chemistry, in Elementary Physiology, and in Elementary Botany shall be members, and the Professor of Natural Science, whether an Examiner or not, shall be Chairman.

12. The Examiner appointed for each subject shall prepare the Pass paper and the Honour paper (if any) in that subject; but the Board of Examiners for the group under which it falls shall revise and may alter the papers so prepared, shall affix the numerical value to each question, shall determine the numerical or other standard for Pass and Honours (if any) in each subject of the group, shall, if required, afford help to the Examiner in case of difficulty or doubt, and shall prepare the Class List of the Group; and the Examiner appointed for each subject shall value the answers of Candidates, and decide on Passes and Honours in that subject. The papers of any Candidate rejected by the Examiner shall be submitted to a second
Member of the Board. If this Member concur, the decision of the two shall be final. If there be a difference of opinion, a third Member of the Board shall give a final decision. After the first Examination held under these Regulations it shall be the duty of the Board to prescribe, wherever necessary, the details of the Examination, and, wherever classical authors are prescribed, to notify the text selected for Examination.

13. On or before the first day of each Matriculation Examination the Registrar shall send to the Examiner appointed for each subject two Lists, containing respectively the Examination numbers of those Candidates who present themselves for Pass or for Honours in the subject. These Lists shall, within eighteen days from the commencement of the Examination, be returned by the Examiner to the Registrar, with all the information required for the compilation of the Lists mentioned in § 6, which shall forthwith be prepared and published by the Registrar.

14. The four Class Lists shall be prepared by the several Boards, with the assistance of the Registrar.

15. Matriculation Examinations may be held at such times, in such places, and under such supervision as the Council, after consulting the Professorial Board, may from time to time appoint.

16. Notwithstanding anything to the contrary, the preceding Regulations shall come into force at the Matriculation Examination to be held in the October Term, 1881.

Chapter VI.

8. No Student shall be admitted to the First Examination of the course for the Degree of Bachelor of Medicine unless he shall have produced evidence that at some Matriculation Examination or other University Examination he has passed in Greek, Latin, English, Arithmetic, Algebra, and Geometry.

Chapter XV.

Schedule.

Form to be sent to the Registrar by Candidates for Matriculation.

The University of Melbourne.

I, ___________________________ 18 hereby give notice that I intend to present myself at the Matriculation Examination in N2
the Term 18 for Examination in the following subjects, viz.:

**FOR PASS.**

1. 8.  
2. 9.  
3. 10.  
4. 11.  
5. 12.  
6. 13.  
7. 14.  

**FOR HONOURS.**

1. 5.  
2. 6.  
3. 7.  
4. 8.  

and I send herewith the prescribed fee of £ and supply the information required of me, viz.:

1. Name at full length  
2. Date and Place of Birth  
3. Name of Father  
4. Name and Residence of Parent or Guardian  
5. Signature of the same  
6. Post Office Address  
7. Last Place of Education  

*Signature of Candidate.*

**CHAPTER XVII.**

5. Four Exhibitions shall be awarded at the Matriculation Examination in the October Term to the Candidates, being under twenty-one years of age, who severally stand highest in the first class of the four Class Lists published after that Examination.

6. No Student who has matriculated may compete for Honours at any Matriculation Examination.

**ALTERATIONS IN STATUTES MADE BY THE COUNCIL.**

That the following addition be made to Chapter VII. of the Statutes:

"Section 3.—No paper in Law shall be set in the Ordinary

* The same subjects cannot be presented for both Pass and Honours."
Examinations for the Degrees of LL.B. and LL.D. which shall not have been approved by the three Public Examiners in Law, and no Student shall be rejected in any Law subject without the concurrence of two at least of the three Public Examiners."

That Chapter XL, Section 14, of the Statutes, be amended by inserting in line 18, between the words "the" and "three," the following words, "three Arts courses of the First Year on payment of the fees for two such courses and."

**ALTERATIONS IN REGULATIONS MADE BY THE COUNCIL.**

That Chapter XI., Section 2, of the Regulations, be amended by adding to the words "Lower Mathematics" the words "or Upper Mathematics."

**STATUTE FOR THE AFFILIATION OF ORMOND COLLEGE PASSED BY THE COUNCIL.**

Whereas the Honorable James MacBain Andrew Scott William Kerr Thomson Robert Jonathan Jeffray John Lang Currie John Cumming Alexander Morrison and Francis Ormond are registered as proprietors under the Transfer of Land Statute of the Colony of Victoria in fee simple of the land described in the Schedule hereto said lands and buildings thereon to be used and maintained as and for a College affiliated to and connected with the University of Melbourne for the education, residence and benefit of members of the Presbyterian Church of Victoria and to be held by them as trustees subject to certain conditions and provisions set forth in the Statement of Trusts submitted for allowance by the Governor and allowed by him prior to such registration as aforesaid as appearing in the Government Gazette: And whereas there have been erected on such site a building and offices for the purpose of an Educational Establishment called a College according to plans and designs approved by the Council of said University and rules and regulations for the government and management of such Educational Establishment have been made: And whereas by the Eighth Section of the Act of Incorporation of the University of Melbourne it is made lawful for the said University to make any Statutes for the affiliation to or connexion with the same of any College or Educational Establishment to which the governing bodies may consent provided
that no such Statute shall affect the religious observance or regulations enforced in such College or Educational Establishment and the trustees and governing body of the Educational Establishment first above mentioned are desirous that the same be affiliated to the said University: Now therefore it is hereby with the consent of the persons whose names are subscribed being a majority of the trustees and governing body of the said Educational Establishment provided as follows:

The Educational Establishment hereinbefore mentioned shall be an Educational Establishment of and within the University of Melbourne and be known and distinguished as Ormond College: Provided always that every Student at the College shall within six months after he has entered into residence either be matriculated at the University or admitted ad eundem statum therein.

SCHEDULE.

Description of Site of Ormond College.

All that piece or parcel of land containing ten acres twelve perches, county of Bourke city of Melbourne commencing at the north-west angle of Trinity College Reserve being a point on the southern side of College Crescent bounded thence by the said crescent bearing north-easterly seventeen chains eighty-one links in an arc of a circle whose centre lies south-easterly thirteen chains sixty-six links thence by the Wesleyan Affiliated College Reserve bearing south eight chains thence by the University and Affiliated Colleges Recreation Reserve bearing south-westerly seven chains thirty-eight links in an arc of a circle whose centre lies south-easterly five chains sixty-six links and thence by the Trinity College Reserve aforesaid bearing north seventy-four degrees forty-three minutes west eight chains to the point of commencement.

The above are correct statements of Receipts and Disbursements on account of the University, and of the Shakespeare, Armit, and Howitt Scholarships, and of the Stawell Exhibition and the Great Hall Building Funds of the University of Melbourne, from 1st January to 31st December 1880.

A. C. BROWNLESS,  
Vice-Chancellor.

A. O. BROWNLESS,  
Chairman of the Executive Committee.

28th May 1880.
No. 219.

We certify that we have examined the statement of the accounts of the Melbourne University for the year 1880, together with the supporting vouchers, and find the same to be correct. The balances of the several accounts are as follow:
